Ambitious full-stack developer with a passion for continuous learning and user experience design. Key strengths include time management, problem solving and communication. Extensive customer service background and great client-facing skills.

---

## Software Development Portfolio

- twinmo | [twinmo.me](https://twinmo.me) | [github.com/nguyntony/twinmo](https://github.com/nguyntony/twinmo) Feb 2021
- Led interface design and development for a fully-responsive, tailored dashboard for payment services using React and Sass.
  - Increased code quality and speed of delivery by researching and implementing libraries including React-Spring, Multer, and Sequelize.
  - Implemented a project board consisting of tasks, research and resources to improve workflow efficiency and productivity.
- T | WIN Finance Tracker | [twintracker.me](https://twintracker.me) | [github.com/nguyntony/finance-tracker](https://github.com/nguyntony/finance-tracker) Jan 2021
- Implemented backend technologies such as Express, Node and Sequelize to store, save and modify user information for personal finance tracking.
  - Created an intuitive interface with user-centered design while balancing speed of delivery with libraries such as Chart.js and Numeral.
  - Created and documented architecture for front end and back end, facilitating team alignment and a smooth development process.
- Go Hike | [github.com/nguyntony/goHike](https://github.com/nguyntony/goHike) Nov 2020
- Incorporated the Hiking Project Data API and Google Places API to return nearby hiking trails based on user location input. Built with modern JavaScript, HTML, and Sass
  - Designed a convenient and practical user search interface that dynamically generates data and features a mobile-friendly design.
  - Spearheaded peer programming with an emphasis on debugging and code improvement.

## Professional Work Experience

- District M / E Ramen | Lead Server | Atlanta, GA Sept 2018 - July 2020
- Sustained exceptional customer satisfaction through communication, proactivity and organization.
  - Orchestrated training for new hires on company culture and serving etiquette.
  - Earned recognition for most sales in a fast-paced environment on several occasions.
- 

## Software Development Skills

HTML | CSS | Javascript | Python | Node.js | React | Express.js | Sequelize | PostgreSQL | Debugging | Sass | RESTful API | Redux | AWS | UI/UX Design

## Education

- DigitalCrafts | Certificate in Software Engineer | Atlanta, GA Oct 2020 - Feb 2021
- Full stack training program that focuses on pertinent skills such as JavaScript, Python, React, Redux, Node and Express.
